- 6.4.2.1 Reconciling itemized receipts to transactions reported on the credit card statement allows the Cardholder to make sure that all purchases have been reported, that any credits have been received, and provides the opportunity to resolve any discrepancies.

## 6.5 Improper use, auditing, and violations

### 6.5.1 Improper Use of a PCard

- 6.5.1.1 For questions regarding whether a PCard can be used for a certain type of purchase, please contact one of the PCard

Administrators for assistance.

6.5.1.2 The PCard Program is administered in accordance with policies and procedures established by the University. Purchasing Services is authorized to suspend or revoke PCard privileges for cardholders considered to be in violation of University purchasing and PCard policies and procedures.

## 6.5.2 Audits of PCards

6.5.2.1 All PCard transactions are audited as part of a formal review process. The formal review will be conducted by Internal Audit. Deficiencies and violations are assessed by the internal auditor. The review process will generally follow the outline below.

6.5.2.1.1 Cardholders and Budget Administrators are contacted when there are questions regarding the audited transactions in their area.

6.5.2.1.2 After the audit is completed, cardholders are notified regarding any deficiencies found and given the opportunity to correct the deficiency depending on the circumstances.

6.5.2.1.3 Cardholder's supervisor will be notified of unresolved audit violations, points assessed and suspended PCards.

6.5.2.1.4 The Board of Trustees Audit Committee will be informed of fraudulent use of PCards.

## 6.5.3 PCard Violations

6.5.3.1 DSU uses a points system to assess employee PCard violations. Points are assessed by the Internal Audit Department and are based on the nature of each violation. A cardholder may only accumulate a certain number of points before their card is suspended/revoked. For additional information relating to the points system see the Purchasing Card or Internal Audit web sites.

6.5.3.2 Below are some violations and definitions:

6.5.3.2.1 An *unreported personal purchase* is any purchase made with a DSU PCard that is not specifically for University purposes and is discovered by anyone other than the

cardholder.

- 6.5.3.2.2 ***Lending Purchasing Card*** is any time the Purchasing Card is being used by anyone other than the authorized cardholder. However, administrative assistants may use a supervisor's PCard to make travel reservations for the supervisor, only.
- 6.5.3.2.3 A ***split transaction*** is any transaction where the cardholder asks a vendor to run multiple transactions as a way of circumventing the transaction limits assigned to the card. It can also be a conscious decision by the cardholder to make multiple purchases from a vendor in a short period of time as a way of circumventing transaction limits or other procurement guidelines.
- 6.5.3.2.4 ***Failure to provide supporting documentation*** is when a cardholder fails to provide a "receipt" substantiating a purchase made or a credit received. The receipt must include, at a minimum, the date of the purchase/credit, vendor name, and an itemized listing of what was purchased and the price of each item.
- 6.5.3.2.5 ***Failure to provide required approval signatures*** is when, at the time of audit, the cardholder has not acquired the appropriate approval signature from the budget administrator or the budget administrator's expressly designated supervisor for purchases made. Designee authorizations must be in writing and state the period of time that the approval has been authorized.
- 6.5.3.2.6 An ***unapproved purchase*** constitutes a purchase made by the cardholder that was not approved by the appropriate budget administrator or violates University procurement and purchasing card policies and procedures. Contact the PCard Administrator if you have questions.
- 6.5.3.2.7 Each card is assigned a single transaction limit and monthly cycle limit. Purchases over these limits will be considered a ***purchase exceeding single/cycle limit***. To learn more about PCard limits contact the PCard Administrators.
- 6.5.3.2.8 ***Improper coding of transactions*** is when the coordinator

posts any transaction to an inappropriate index code or expenditure account code.

6.5.3.2.9 *Failure to reallocate transactions* in a timely manner is when the coordinator fails to follow the transaction reallocation process before a transaction is posted to the institution's finance system. Departments are given 7 calendar days to appropriately describe and code each transaction (both index and expenditure account code) before transactions are posted. All transactions must be moved out of the default account code. Once posted to the finance system an expenditure transfer request is required to appropriately code each transaction.

6.5.3.2.10 *Personal purchase transactions* are never appropriate when using a PCard and may result in the suspension of the card. If a personal purchase occurs, it must be corrected by paying the cashier's office the amount of the purchase. The Cashier will need to know which index and account code to credit. The receipt from the cashier must be attached to the bank statement along with a short explanation of why the error was made.
